

**Annual Tax Filer Data, T1 Family File (T1FF)**  
**Income Statistics, Statistics Canada**

This document accompanies the webinar offered by the Community Data Program which took place on January 18<sup>th</sup>, 2017.

**Mandate of the T1 Family File (T1FF):**

To supply personal and family income data for different levels of Geography, with a focus on lower level geography. In 2014, T1FF included 34.2 million individuals (26.9 million tax filers plus their dependents). This represented about 9.8 million census families and just under 6 million individuals not in families.

**Basic units of analysis for social statistics:**

Individuals (IND)

Census families (CF)

Spouses/partners and their children living together who are part of a couple family (with or without children) or a lone-parent family
