

Community Data Program

Enabling communities across Canada to measure and track local well-being

Community Snapshot

City of Burlington 2017 Competitive Analysis

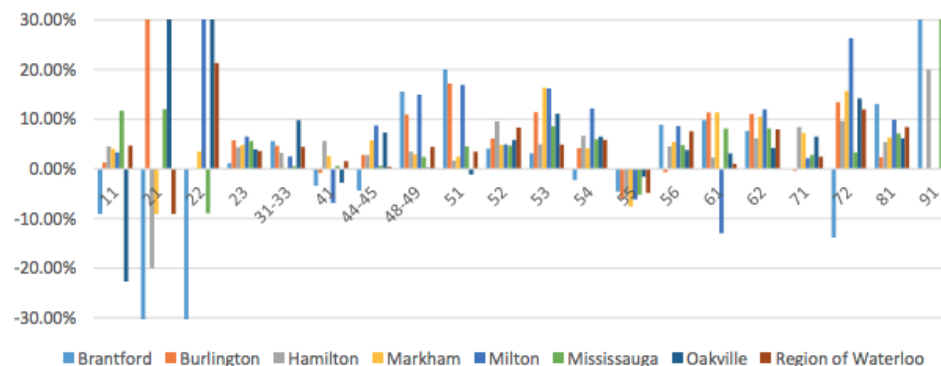

Summary

The Burlington Economic Development Corporation produced the first version of the competitive analysis in 2015 as part of an economic baseline for Burlington's Economic Visions 2015-2025. [A comprehensive update was done to the analysis in 2017](#), incorporating some 2016 Census information.

The Burlington Economic Development Corporation uses the competitive analysis to compare themselves to key local competitor municipalities to ensure they have a competitive business environment and formulate policy recommendations in areas that Burlington could be more competitive.

CHANGE IN # BUSINESS ESTABLISHMENTS BY NAICS, BURLINGTON AND COMPARATOR JURISDICTIONS
Dec 2014 – June 2016 (Without Employees)
