## Service Planning (integrating service mapping with demographics)

STRATEGIC POLICY EXAMPLE:

"Toronto's Priority Improvement Neighbourhoods"

NEIGHBOURHOOD INVESTMENT FRAMEWORK:

Poorer Coverage and Higher Need

Legend

Number of Poorer Access Services

- N/A
- 1 Service
- 2 Services
- 3 Services
- 4 Services
- 5 Services
- 6 Services

Notes: Numbers on map refer to neighbourhood #, not coverage. Refer to neighbourhood map in the Appendix for proper names. There is no data for the 905 area, and this may affect coverage ratings in border areas.

Notes: This is part of the Research Strategy of the Strong Neighbourhoods Task Force.

- Now compare this to 11 socio-economic indicators (as identified in background research report #3):

  1. median household income
  2. % pop'n spending 30%+ on shelter costs
  3. % pop'n age 25+ unemployed
  4. % students passing High School Literacy test
  5. % pop'n with college or university qualifications
  6. % pop'n attaining less than grade 9 education
  7. % dwellings requiring major repair
  8. # low birth weight babies per 1000 live births
  9. % pop'n without English or French language skills
  10. % pop'n that are recent immigrants
  11. % pop'n by mobility status 1 year ago

- Map on next slide shows the number of times each indicator was 20% worse than city average.

•These neighbourhoods are now combined where geographically appropriate into "**13 Priority Areas**".
