2021 Census production – upcoming

No more semi-custom tables to be acquired.

IMDB tables have been received and are being cataloged.

In production:

- Core Housing Need table – expected in October
- Target group profile of the Francophone population
- Target group profile of the population living in dwellings in need of major repair

Looking at invoices that will arrive in 2023, the CDP has hit its data acquisition budget limit! New table deliveries will have to wait until mid-December.

Setting priorities

Target Group Profile choices

- TGPs we've already received but at the DA level
- TGPs we've already received but at custom geographies
- new TGPs

Vancouver:

- Total population that low income calculations apply to (to create a denominator for different indicators in the various low income TGPs)
- Employed population by place of work (at home/usual place/no fixed)

Kingston:

New priority: Interest in where people are living and working

High-ranking custom tabulations

- [Activity Limitations Table 1: Age \(18\), Sex \(3\), Activity limitation frequency \(7\) and Activity limitation type \(9\), for the Population in Private Households](#)
- population by structural type of dwelling? at custom geos
- [Selected Language, Labour Force, Education, Income and Mobility Status Characteristics \(73\), Admission Category and Applicant Type \(13\), Period of Immigration \(15\) and Sex \(3\)](#)
- [Selected household and housing characteristics \(28\), Admission category and applicant type \(13\), Period of immigration \(16\) and Sex \(3\) for the Population in Private Households](#)
- [Shelter cost groups \(18\), Household type \(9\), Age groups of primary household maintainer \(9\), Housing tenure including presence of mortgage and subsidized housing \(7\)](#)

Household and Family TGPs

These will be acquired in 2024.

StatCan has started working on what variables will be included in the 2021 version of these tables.

These tables replace the household- and family-level variables that are available in the Census Profile but not available in Target Group Profiles, because the TGPs use person-level characteristics to define the target group.

Currently in the queue:

- Household & Family TGP of the low-income population (LIM-AT)
- Household & Family TGP of the visible minority population (**REQUESTS TO BREAK OUT BY CATEGORIES) – WILL NEED TO BE CLEAR ON DEFINITIONS / DOUBLE-COUNTING**)
- Household & Family TGP of the population spending 30%+ and 50%+ of income on shelter costs
- Household & Family TGP of owner and renter households
- Household & Family TGP of the recent immigrant population (can this be a composite TGP?)
- Household & Family TGP of the immigrant population (can this be a composite TGP?)

- Household & Family TGP of the low-income population (MBM)
- Household & Family TGP of the Aboriginal identity population
- Household & Family TGP of population aged 65 and over
- Household & Family TGP of multi-generational households
- Household & Family TGP of households in housing that are unsuitable
- Household & Family TGP of households in subsidized housing
- Household & Family TGP of households in need of major repairs
- Household & Family TGP of population with activity limitations
- Household & Family TGP of Households and Families with Children 0 to 6

IRCC Temporary Residents data order

This order will be submitted soon.

Peel: High demand for these data tables. Will share details of Peel TR data order.

Community Action for Workforce Development project

CDP will be creating a data portal containing Tableau products to support community workforce development, focusing on rural/remote communities and marginalized populations.

Will be conducting a trial run with some Telus data. The data can track cell phone movement based on cell tower pings.

Kingston:

- Caution: dead zones without coverage
- Considering marginalized populations – who has cell phone data?

Webinars

The CDP team is soliciting the DPAWG members for webinar ideas.

November 21, 2023: Using Canadian Community Health Survey (CCHS) Public Use Microdata File (PUMF)

Tableau Infographics and Dashboards

The CDP team is soliciting the DPAWG members for infographic and dashboard ideas.

Updated housing dashboard is being worked on.

Inflation effects and the effects of increasing interest rates:

- Increased construction prices / decrease in housing completions
- CPI
- Census
- T1FF
- CCHS – food security

Canadian Housing Survey – look into these tables again

Energy Poverty tables – relates to affordability/inflation crisis

Next meeting

Week of November 13th.

Other business

Microdata webinar: STC looking into this. Check out the recording of the CCHS webinar:

Contact at IRCC to find out how TR in Hong Kong permanent resident stream will be classified going forward? How will these TR be classified? HK residents have a path similar to refugees.

ACTION: Inquire about Disability Tax Credit Statistics data at smaller geographies.

Available at provincial level, disaggregated by age

<https://www.canada.ca/en/revenue-agency/programs/about-canada-revenue-agency-cra/income-statistics-gst-hst-statistics/disability-tax-credit-statistics/dtc-statistics-2021.html#toc2>

ACTION: Status of What Works Centres collaboration?

- Launched Poverty Hub website: <http://www.povertyhub.ca/>
- Looking for funding, which could allow for further collaboration with the CDP.

ACTION: the Canadian Survey on Disability is in the queue for 2024?
