

Community Data Program

Enabling communities across Canada to measure and track local well-being

Community Snapshot

Simcoe Muskoka Health Stats

Summary

[HealthSTATs](#) is a section of the Simcoe Muskoka District Public Health Unit's website dedicated to communicating data to internal users, community partners, and the general public. These pages provide information on key health indicators, trends, and municipal-level data. In many cases, this information is used to help plan services to improve the health of our community.

SMDHU's [low income focus report](#) offers a clear picture of who lives in low income in Simcoe Muskoka, the ramifications of living in low income, particularly on health, and some suggestions on creating communities where everyone is able to afford the basics of life and enjoy the chance to be healthy. The report was shared with nearly 70 community and provincial partners.
